EDUCATION

Indian Institute of Information Technology, Kota

2023 – 2027

B.Tech in Computer Science and Engineering — CGPA: 7.18/10

Kota, Rajasthan

EXPERIENCE

Frontend Developer Intern — Intern Alpha

Offer Letter

June 2025 – August 2025

Remote

- Developed and deployed **responsive web applications** using **React.js**, **JavaScript**, **HTML5**, and **CSS3**, delivering scalable and production-ready user interfaces.
- Built reusable **React components** and integrated **REST APIs** to optimize frontend performance, state management, and dynamic data rendering.
- Collaborated with cross-functional teams using **Git**, **Agile**, and **version control** to develop production-ready software features.
- Debugged, tested, and optimized frontend applications, improving responsiveness, browser compatibility, and overall user experience.

PROJECTS

BillBuddy – AI-Powered Expense Splitting Application

Live

GitHub

— *Next.js, React.js, Tailwind CSS, Clerk, REST APIs, Gemini AI*

- Built a scalable **full-stack web application** using **Next.js**, **React.js**, **Convex**, and **Clerk Authentication**, supporting secure authentication and real-time expense synchronization.
- Designed reusable and responsive React components while integrating REST APIs to deliver an optimized user experience across desktop and mobile platforms.
- Implemented a Splitwise-style debt simplification algorithm and automated expense workflows to improve transaction efficiency and real-time balance reconciliation.
- Integrated **Gemini AI**, **REST APIs**, and event-driven workflows for automated expense categorization, intelligent financial insights, and notification automation.

VERA AI – Deterministic AI Message Engine

Live

GitHub

— *Python, FastAPIs, REST APIs, AI Workflows, Rule Engine*

- Developed a **deterministic AI message engine** using **Python** and **FastAPI** to generate **context-sensitive merchant engagement messages** from structured **merchant, category, trigger, and customer** data.
- Designed a **7-stage AI workflow** including **Feature Extraction**, **Signal Detection**, **Goal Inference**, **Candidate Ranking**, and **Rule Engine** for deterministic AI decision-making.
- Developed scalable **FastAPI REST APIs**, optimized backend performance, and delivered low-latency, production-ready AI services.
- Improved AI response quality through **rule-based ranking**, **template optimization**, and a **5-dimensional evaluation framework** across five business categories.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, Java, C++

Frameworks & Technologies: React.js, Next.js, FastAPI, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, REST APIs

AI & Backend: FastAPI, LLM APIs (OpenAI, Gemini), Prompt Engineering, AI Agents, REST APIs

Developer Tools: Git, GitHub, Docker, Linux, Postman

Databases: MongoDB, PostgreSQL, SQL

Core CS: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP, Agile Development

DSA & COMPETITIVE PROGRAMMING

- Solved **400+** algorithmic and data structure problems across **LeetCode** and **CodeChef**, covering arrays, linked lists, trees, graphs, dynamic programming, greedy algorithms, and graph algorithms.
- Achieved a **3-Star CodeChef** rating and a maximum **LeetCode rating of 1587**, solving 400+ problems that strengthened algorithmic thinking, data structures, debugging, and problem-solving abilities.

AWARDS & LEADERSHIP

- 1st Runner-Up, DevQuest 2025 (IIT Jodhpur)** [Certificate](#) – Secured runner-up position in a national-level hackathon by designing and developing an innovative software solution under strict time constraints.
- Top 10, Hack the Chain 2.0** [Certificate](#) – Ranked among the Top 10 teams at IIIT Kota TechSummit for building a scalable and impactful software solution.
- Co-Coordinator, Quills N Stills (Q'N'S)** – Led the design and publishing of 5+ college magazine editions while coordinating with cross-functional teams to streamline editorial and creative workflows.
- Coordinator, Team Green Campus Chapter (TGCC)** – Organized campus events and environmental initiatives, coordinating volunteers and leading plantation drives resulting in the planting of 50+ trees.
